# ACWD Voluntary PFAS Monitoring

The Alameda County Water District is committed to delivering safe drinking water to our customers. This commitment includes a voluntary approach to monitoring drinking water for PFAS. Below are the ranges of concentrations (of all samples since monitoring began in June 2020) and annual averages of results from the recent four quarters (First, Second, Third and Fourth Quarter of 2022 voluntary PFAS monitoring. For more information, please visit www.acwd.org/PFAS.
