

Accounting and Treasury Manager

Class Code:
106

DEFINITION

Under direction from the Manager of Finance, provides leadership, plans, organizes, directs and manages the accounting department and all accounting responsibilities and related financial support services including cash and investment management; through subordinate supervisors, plans, schedules, directs, coordinates and reviews the work of professional support staff in the preparation of the District's financial statements, payroll, accounts payable, accounts receivable, and all other accounting functions; responsible for all treasury functions and prudent handling of cash and investments; prepares reports and analyses of financial issues for consideration by senior management or the Board; serves as primary liaison person with external auditors during the annual review; and performs related work as required.

DISTINGUISHING CHARACTERISTICS

Accounting and Treasury Manager is a single-position mid-manager classification. Under administrative direction within a framework of overall goals and objectives, the incumbent is responsible for the direction, management, accuracy and completeness of all accounting and treasury activities, development of strong internal controls and integration of a wide range of complex financial service functions and activities including: managing the accounting department and all accounting functions within GASB, legislative and District guidelines; managing the treasury functions; strategic and long-range financial forecasting, financial and management analysis, and departmental business process and system reengineering studies. Responsibilities are broad in scope and require leadership and independent judgment on issues that are complex, interpretive and evaluative in nature.

This classification is distinguished from other Managers within the District by the specific responsibility for managing the staff and activities of the accounting function and related financial support services. This classification is distinguished from the Manager of Finance in that the latter is a department head with overall responsibility for directing District-wide finance and related administrative support services and provides direction to this classification.

TYPICAL DUTIES

TYPICAL EXAMPLES OF DUTIES MAY INCLUDE BUT ARE NOT LIMITED TO THE FOLLOWING:

- Responsible for the accuracy and completeness of all work produced by general accounting personnel in the areas of accounts payable, payroll, miscellaneous accounts receivable, job cost and fixed assets, journal entries and maintenance of general ledger accounts; and financial reporting in accordance with current General Accounting Standards Board (GASB) guidelines; accuracy of all tax, payroll and benefits and OPEB reporting calculations and submittal of payments in compliance with established deadlines; and adherence to established internal control practices and procedures.
- Serves as primary liaison person with external auditors during the annual review of District financial records and activities and ensures accurate development of the CAFR.
- Provides financial information and accounting and financial support to others in connection with purchasing and inventory control, rates and charges analyses, tax law changes and compliance, payroll and benefits changes and compliance, analysis of the

liability insurance program, and other financial information and analysis for other District issues and programs as required.

- Manages and understands use of the financial software system and recommends system configurations changes and/or modifications to improve performance or ease of use and to ensure the integrity of the system. Understands and guides others on the logic of interfacing software and instructs them on how to reconcile financial data and transactions between software systems.
- Ensures compliance with District investment policy and annually reviews and improves investment policy; manages all treasury functions including cash and investment management procedures and develops strong cash internal controls to ensure prudent liquidity to cover the current and future financial obligations of the District; tracks investment activities and performance and remains alert to current investment and economic conditions and manages the investment portfolio to minimize risk under adverse conditions; ensures adherence to State investment laws and establishes practices to manage overall investment risk.
- Ensures that outstanding debt, and related reserves and financial transactions, are in compliance with annual reporting requirements of the District, and any associated debt financing entity, and also complies with IRS guidelines. Proactively analyzes need for new debt issuance and makes recommendations.
- Produces monthly financial statements and cash flow. Proactively monitors information for financial issues and communicates problem areas promptly. Ensures monthly journal entries cover monthly activity and prevents all adjusting entries being delayed until the end of the year. Maintains chart-of-accounts to ensure effectiveness and efficiency and the integrity of the levels of detail.
- Reviews and improves the District's debt and reserve policies, and any other financial policies, on an annual basis; reviews and improves financial administrative guidelines and recommends new financial policies and administrative guidelines as required.
- Stays current on legislative and tax changes and the GASB guidelines and makes recommendations on policy or procedural changes based to ensure compliance with changes identified and implements policy and procedural changes as needed
- Monitors, reviews and improves procedures for improvements to internal controls and efficiencies with special attention to cash handling in customer service, investment handling, payroll and accounts payable.
- Responsible for ensuring all aspects of the OPEB investments, banking and investment resolutions and agreements, reimbursements and payments are in strict compliance with GASB, Board directives and other applicable laws and tax rules.
- Recommends business process changes to cross-functional management peers to achieve improved joint performance efficiencies; implements business process changes and measures performance.
- Interviews and hires new employees; plans and evaluates the performance of

Accounting and Treasury Manager

supervisors and staff; establishes performance requirements and personnel development targets; regularly monitors performance and provides coaching for performance improvement and ongoing development.

- Develops deep knowledge of the functions of each finance department and how business processes and data flows are interrelated. Assists Manager of Finance in critically thinking through change issues and develops and implements plans for change as needed.
- Contributes to big picture, strategic thinking and applies this to short term and long term planning.
- Performs other related work as required.
