DEFINITION
Under direction from the Purchasing Officer, procures materials, supplies equipment and services commonly used by the District; determines specification requirements and identifies vendor pool; issues formal and informal solicitations; reviews specifications and evaluates responses received; generates purchase orders; analyzes and researches procurement best practices; and performs other related work as required.

DISTINGUISHING CHARACTERISTICS

**Buyer I** is the entry level in the professional Buyer series. Under close to general direction within a framework of established policies and procedures, incumbents learn and perform less complex and specialized professional buying tasks. As experience and proficiency are gained, assignments become more varied and complex and the level of independent action increases within established guidelines. Assignments are given in specific terms and are subject to frequent review while in progress and upon completion, except where tasks are well defined by established standards, policies and procedures. There is limited latitude for independent judgment.

This class is distinguished from the experienced, journey-level Buyer II class by the routine nature and limited complexity of work assignments and the level of oversight received. The Buyer I and II classifications are flexibly staffed. Incumbents in this classification normally advance to a Buyer II after two (2) years at entry level and upon recommendation of the immediate supervisor and approval by the department manager and demonstrated proficiency to meet the job requirements of the Buyer II classification.

**Buyer II** is the experienced, journey-level, in the professional Buyer series. Under general direction within a framework of established policies and procedures, incumbents are fully competent to perform the full range of assigned tasks. Assignments are given in general terms and are subject to review upon completion. There is significant latitude for independent judgment and action in well-defined areas of work.

This classification is distinguished from the Senior Buyer position, which is a professional advanced journey-level class in the purchasing job family, and from the Purchasing Officer which is a supervisory class responsible for staff performance and the efficient and effective operation of purchasing functions.
