DEFINITION
Under direction from an Accounting Supervisor, performs professional accounting duties related to budgeting, cash and investment management, financial reporting, rate analysis, fixed assets, general and job cost accounting, year end closing and payroll administration; prepares a variety of budgets, schedules and analytical, statistical and accounting reports for presentation to management and other end users; may exercise technical and/or functional oversight to accounting support staff; and performs other related work as required.

DISTINGUISHING CHARACTERISTICS

Accountant I is the entry level in the professional Accountant series. Under close to general direction within a framework of established policies and procedures, incumbents learn and perform less complex and specialized professional accounting tasks. As experience and proficiency are gained, assignments become more varied and complex and the level of independent action increases within established guidelines. Assignments are given in specific terms and are subject to frequent review by a lead or supervising accountant while in progress and upon completion, except where tasks are well defined by established standards, policies and procedures. There is limited latitude for independent judgment.

This class is distinguished from the experienced, journey-level Accountant II class by the routine nature and limited complexity of work assignments and the level of supervision received. The Accountant I and II classifications are flexibly staffed. Incumbents in this classification normally advance to an Accountant II after two (2) years at entry level and upon recommendation of the immediate supervisor and approval by the department manager and demonstrated proficiency to meet the job requirements of the Accountant II classification.

Accountant II is the experienced, journey-level in the professional Accountant series. Under general direction within a framework of established policies and procedures, incumbents are fully competent to perform the full range of assigned professional accounting tasks. Assignments are given in general terms and are subject to review upon completion by an Accounting Supervisor. There is significant latitude for independent judgment and action in well-defined areas of work.

This classification is distinguished from the advanced journey-level Accountant III class which is a lead position responsible for the efficient performance and accuracy of all work assigned to a functional unit of the Finance Division, performs more responsible and difficult accounting activities and provides supervision in a lead capacity to professional or para-professional accounting staff. This classification is further distinguished from the Accounting Supervisor class which is a supervisory class responsible for the completion of the most difficult and complex accounting work and the daily operation of a centralized financial services function.
